Title:

Comments: The more out door facilities available for local residents and tourists, the stronger the New Mexico, Questa and RedRiver economies will benefit. The more tourists spend, every one including state and federal agencies can justify larger budgets to manage the increased use of their respective facilities. As an active senior, we need more trails and more financial support to maintain those trails. I would greatly appreciate the expansion of off road vehicle trails. At 75 yrs old, I will become more dependent on some mechanical assistance in experiencing this beautiful outdoor wonderland. E-bike or sxs etc
