Comments: I am in support of class 1 ebike use in all areas that allow mountain bike use. As a 64 year old with a replacement knee and other physical issues I am able to enjoy the Forrest as I used to with my class 1 e-bike. It still requires that I pedal it and is not a motorcycle as some claim. In my experience it has no more impact than a standard Mountain bike like those I rode for years before aging and injury slowed me down. It also allows me to keep up with the speed of traffic and not slow others down. My class 1 ebike has contributed significantly to my well being and physical conditioning.
