Title:

Comments: I am submitting this on behalf of the Montlure Camp. Montlure has had a positive impact for both my and brother and I over the past 30 years. We starting going to this camp in elementary school as campers and also became counselors & directors into our mid 20's. This camp has a lasting impact for youth and we develop so many friends throughout the state during our stays at Montlure. We were the first to help out after the fire and continously volunteer during clean up efforts. Our family and friends visit Greer every year and always stop in to see Montlure and catch up on the memories. Now I know not everyone believes in God or has a spiritual relationship, but for the many of us that do this place is truly God's place. Please help preserve this special place and help it remain open to continue God's work and bring people together to feel as a special community.
