Title:

Comments: I have been part of the Montlure community for 50 years. I attended Montlure as a camper when I was about 13. The camp, the staff and other campers accepted a very shy girl and helped give me a voice to share about the joy of camp and the beauty of the camp.

I have watched the camp give the same gift to many of the young people and older adults that have spent time there.

Recently I have served on the board that oversees the camp and have worked with the Forest Service to find the way back to using the Greer facility.

This proposal is eagerly anticipated and so welcome for the camp to continue providing the experience of nature and recreation.
