Comments: Hi, I support Alternative 1, the preferred Alternative. I particular I support the use of E-bikes on trails south of Highway 22 on Teton pass, outside of the WSA. I agree with keeping the trails North of the road closed to e-bikes as well. I know less about the Munger and Horsetail areas and have no real opinion there. I do support the additional trail building proposals included in Alternative 1.

I gotta say, great job on managing this process and crafting an excellent compromise.
