Title:

Comments: I want to thank you for working with the Presbyterian Church and the Presbytery of Grand Canyon as well as the Montlure Camp Board to restore the access to the National Forest at this location. Over the years I have found that the lives of young people are changed for the better when they get a chance to experience nature first hand. I was the Facilities Manager in 2011 and was thrilled by the work that all the fire fighting personnel did to help defend the camp at the time of the Wallow Fire. I believe that the Montlure Camp Board is dedicated to involving as many members of the immediate community as well as bringing in manpower from around the state to make sure that all work is done well and to code for the betterment of the Camp.
