Last name: charles

Organization:

Title:

Comments: I am concerned about preserving the Bob Marshall Wilderness, including the South Fork of the Flathead River, as a place for hiking and recreation. I want to limit the impact from professional packing companies and other businesses and maintaining the wilderness status of the area for the future of my families and the next generations. Montana's wilderness heritage must be preserved for our descendants. We cannot put mercenary endeavors ahead of our duty to preserve our lands.
