Title:

Comments: The wild habitat of the Flathead River should be preserved.

More scientific data is needed on the user capacity numbers.

Recreation uses are causing wildlife displacement in Wilderness areas.

Flights in and out of Schafer airstrip in the Great Bear Wilderness is impacting the Middle Fork of the Flathead  
Commercial outfitting and guiding should be limited to only the level that is "necessary and "proper" as required  
by the Wilderness Act.

Immediate action is needed to bring the impacts along the South Fork of the Flathead into compliance with the  
area's Wilderness Management Plan.

Data collection and analysis needs to include the entirety of the Flathead River corridor, one-quarter mile to  
either side of the river.
