Comments: Dear Forest Service,

Please commit to serious action regarding the overuse of the Bob Marshall Wilderness to preserve the wild nature of this remaining wild nature.

Habitat protection on the Flathead River is not something that can wait.

Immediate action is critical to address wildlife displacement in Wilderness caused by current recreation numbers and impact of too many flights in and out of Schafer airstrip.

The vast majority of use on the wild rivers should be allocated to public use, and commercial outfitting and guiding should be limited to only the level that is "necessary and proper" as required by the Wilderness Act.

Immediate action is needed to bring the impacts along the South Fork of the Flathead into compliance with the area's Wilderness Management Plan. Please consider these important proposals and do them, in order to save these areas for future generations' use and enjoyment. Thank you. Steev Beeson (213) 924-9091
