Comments: I thank the USDA/USFS for accepting public comments regarding the Flathead management plan. For the sake of the Wilderness and its wildlife, a complete assessment of all impacts must be conducted before a truly informed decision may be made. While I appreciate the Service's efforts toward limiting impacts and gathering data regarding recreation overuse, I am concerned the agencies may not have considered the impacts recreation is already having on Wilderness and wildlife. Please carry out a full review of recreational affects on the region and then act quickly to address the problems. Thank you for all you can do to protect this habitat and all of its vital biodiversity.
