Comments: Dear Forest Service,

It is my belief that habitat protection on the Flathead River is not something that can wait, and the Bob Marshall Wilderness Complex deserves immediate action in order to preserve the wild.

Immediate action is critical to address wildlife displacement in Wilderness caused by current recreation numbers. I also believe that action is needed to reduce impacts to the Middle Fork of the Flathead caused by flights in and out of Schafer airstrip in the Great Bear Wilderness.

Public lands are for the public, and as such, the vast majority of use on the wild rivers should be allocated to public use, and commercial outfitting and guiding should be limited to ONLY the level that is "necessary and "proper" as required by the Wilderness Act.

To have qualitative data, the data collection and analysis needs to include the entirety of the Flathead River corridor, one-quarter mile to either side of the river.

Finally, immediate action is needed to bring the impacts along the South Fork of the Flathead into compliance with the area's Wilderness Management Plan.

Thank you for taking the time to read my concerns.
