Comments: Habitat protection on the Flathead River should not be delayed.

The Wilderness Complex deserves immediate action in order to preserve the wild.

The Forest Service needs more scientific data informing user capacity numbers.

Immediate action is critical to address wildlife displacement in Wilderness caused by current recreation numbers.

As well, immediate action is needed to reduce impacts caused by flights in and out of Schafer airstrip in the Great Bear Wilderness.

Commercial outfitting and guiding should be limited to only the level that is "necessary and "proper" as per the Wilderness Act.

Data collection and analysis needs to include the entirety of the Flathead River corridor, one-quarter mile to either side of the river.

Immediate action is needed to bring the impacts along the South Fork of the Flathead into compliance with the area's Wilderness Management Plan.
