Comments: Habitat protection on the Flathead River is not something that can wait, and the Bob Marshall Wilderness Complex deserves immediate action in order to preserve the wild.

The Forest Service needs more scientific data informing user capacity numbers.

Immediate action is critical to address wildlife displacement in Wilderness caused by current recreation numbers.

Immediate action is needed to reduce impacts to the Middle Fork of the Flathead caused by flights in and out of Schafer airstrip in the Great Bear Wilderness.

The vast majority of use on the wild rivers should be allocated to public use, and commercial outfitting and guiding should be limited to only the level that is "necessary and "proper" as required by the Wilderness Act.

We ALL have a responsibility to work together in order to Protect and SAVE our Wilderness, Waterways and Environment from senseless Destruction and Poisoning in the name of Ignorance and Greed!

We have to STOP the senseless killing of our Wildlife out of Ignorance and Greed!!!
