Title:

Comments: The Bob Marshall Wilderness Complex stands as one of the flagship Wilderness areas in the National Wilderness Preservation System-the 3% of land in the Lower 48 where native wildlife can still find refuge from the pressures of ever-expanding human civilization. For the sake of the Wilderness and its wildlife, limitations on current uses should be considered, and an analysis of impacts should expand beyond the river to include the entire corridor a quarter-mile on both sides of the river. Habitat protection on the Flathead River is not something that can wait, and the Bob Marshall Wilderness Complex deserves immediate action in order to preserve the wild.
