First name: Emily

Last name: S

Organization:

Title:

Comments: Urgently calling on you to further protect the "Bob" by prioritizing accurate and thorough data collection, and by keeping our natural spaces out of private, commercial hands as much as possible. The ecosystems and natural areas, especially in the Southern Fork are essential to protecting and promoting life in this region. Please do not delay. No step is too large in this aspect. We are running out of time. Please exercise the power that I cannot.
