Comments: I want to express my strongest support for the amazing work that Montlure does, and its powerful impact on our kids and our community. I was one of those kids in the late 1990's, and the chance to join a temporary community of other kids in the beautiful forest was life changing. It gave me a whole new appreciation of both the community and the forest. I know generations of people who feel the same, and it seems to me like this is a wonderful use of public resources. Thank you for considering this important renewal.
