Comments: I am writing to address the recent revising of the Wild and Scenic River Management Plan. The proposed plan would quadruple the number of commercial rafting and fishing days. The majority of the allocated service days need to be for private citizens, but having said that, please do not expand the existing levels of use. These rivers are already overcrowded with resulting degradation. Please consider a permit system for all users and enforce strict use and party size guidelines and reduce not expand commercial activity. Thank you.
