Title:

Comments: To whom it may concern: Montlure Camp has been a contributing entity to the Greer Community over its lifetime. Its place in the Greer environs has become an asset to the Community. Its concepts of respect, responsibility and indeed that of stewardship for the immediate and local area help set an expectation or standard for others. Involving the youth of this nation in healthy, environmentally friendly, balanced forestry concepts are seeds that will flourish and pay benefits with time. Please give this project your attention and support.

Thank You
