Title:

Comments: I am writing to support the off-road route of the North Country National Scenic Trail. This federally mandated 18"-24" wide non-motorized foot path will provide a safe, scenic, and durable route for summer hikers on the NCT, who currently use the Fernberg Road to travel from Ely to the Kekekabic Trail while hiking the NCT. This is a non-motorized trail that will encourage Ely residents and visitors to enjoy the grandeur of Superior National Forest.
