Title:

Comments: Please do all you can to save the "Bob" and its wildlife. I used to visit there by parachute, as a smoke

jumper out of Missoula. Now I'm retired after a long career as a seasonal ranger with both the USFS, and NPS, plus professional skiing to fill in the winters, including helicopter ski guiding and ski instruction. Wolves and other wide ranging wildlife need room to exchange genes. Here in NOCA we're as crowded as Jellystone, so we need all the wildlife habitat we can get.
