Comments: As a rock climber and trail enthusiast I'm in full support of this proposed project linking Questa and Red River. What an amazing contribution this would be to the outdoor recreation community locally and, also, for the potential for attracting tourism. It would check so many boxes for user types: climbers, bikers, hikers, runners, fishermen, etc.

I agree with some other comments that the trail should remain unpaved and eco-friendly.

Thanks so much for all the work so far and, hopefully, the work to come!

Best,

Lucas Salazar
