Comments: Please choose Alternative 3 to best protect the wildness of these lands, and what may be.

The Wilderness Act is law. Why do you think you shouldn't have to follow it in the Boundary Waters?

Through my travels to some of our nations great wilds, I've often found myself under a natural cathedral of trunks of trees. The burn scars on the land and life, its natures way, who are we to think that we can change that?

Wildernesses are meant to be UNTOUCHED by man and his beasts of machines.

Let it be that way.

Please do not interfere.

Regards,

Stacy B
