Title:

Comments: I support the free, mandatory float permits to improve visitor use data without restricting access.

I support waste packout and firepan requirements to protect water quality and the environment-while advocating for flexibility in firepan sizes and waste containment systems suitable for all visitors.

I advocate for increased visitor experience monitoring to track congestion and river conditions.

I ask for transparency on how user capacities were determined and how private user input was considered.

I encourage the Forest Service to clarify how private paddlers are managed differently from outfitters.
