Comments: As a packraft and white water canoe paddler I:

Support free, mandatory float permits to improve visitor use data without restricting access.

Support waste packout and firepan requirements to protect water quality and the environment-while advocating for flexibility in firepan sizes and waste containment systems suitable for packrafts, kayaks and canoes.

Advocate for increased visitor experience monitoring to track congestion and river conditions.

Ask for transparency on how user capacities were determined and how private user input was considered.

Encourage the Forest Service to clarify how private paddlers are managed differently from outfitters.
