Title:

Comments: Thank you for this opportunity. I have seen much change in the river use in my 67 years living the the Flathead Valley.

It was difficult to understand and find the proposal. I will do my best to comment.

I agree with prohibiting camping and parking on gravel bars. I agree with limiting dogs on the upper Middle fork from Bear Creek to Essex. I am happy to see prohibition of drones and other aircraft. I'm happy to see addressing campfires.

I am much concerned with the number of rafts I experience from private companies on the Middle Fork. Human waste concerns me. Loud music does deter from the pristine experience.
