First name: David

Last name: Pokorny

Organization:

Title:

Comments: Priority should be protection for water quality and protection from pollutants throughout the watershed. Secondary is enabling wildlife access throughout the scenic riverway. Recreational uses by commercial or individuals should be recognized as different use categories. North Fork sections have limited capacity as appeal of the river experience is primarily its wild nature. Typical individual use is unlikely to exceed capacity while commercial launches need to be monitored. Near Polebridge township area the river's recreational users who wish to visit the Mercantile and Saloon need a public access. Many are accessing through private land near Skyline Drive.
