Comments: I am concerned about the Flathead Comprehensive River Management Plan. Habitat protection on the Flathead River is not something that can wait, and the Bob Marshall Wilderness Complex deserves immediate action in order to preserve the wild. The Forest Service needs more scientific data informing user capacity numbers. The vast majority of use on the wild rivers should be allocated to public use, and commercial outfitting and guiding should be limited to only the level that is "necessary and "proper" as required by the Wilderness Act. Thank you for your time!
