Comments: My thoughts

The capacity for use of the branches of the flathead river is less than being considered. I would suggest limiting the number of boats in a commercial trip to 5 and requiring them to space out launches by a minimum of 15 minutes

I would require packing out solid waste and require proof of groover or wag bags on wilderness portions of the rivers rather than offering option of burying waste 200 feet away

I would prohibit dogs on all portions of the rivers because of solid waste
