Comments: I am a 51 year old avid mountain biker. I've had nine hip replacements and two spinal fusion surgeries. I think (hope) I have a couple more years in which I will be able to ride an analog bike, but it won't be long before the only way I will be able to enjoy riding is on an E-Mountain Bike. Due to my body's limitations, riding is the only form of exercise available to me. Please provide trail options for E-bikes so when the time comes, I can continue doing the sport I love.
