Comments: I fully support the proposed Questa to Red River trail (Q2RRT).

Statistically, New Mexico is one of the more dangerous states for people walking and biking, and the Q2RRT would create an opportunity for residents and visitors alike to safely recreate and access their public lands.

It would also be one step closer to fulfilling the Enchanted Circle Trails Plan by connecting the communities of Questa and Red River. It will be amazing once the Trails Plan is fully implemented and there is a safe, comprehensive, and non-motorized alternative means of transportation for folks to travel around the Enchanted Circle.
