Last name: Romaine

Organization:

Title:

Comments: Add the trails on the pass and open the old pass road to Class 1 ebikes. This could reduce traffic and parking on the top of the pass. Trails on the pass would need to be directional

Add an up trail on shadow mtn.

Add an up trail on Mosquito Cr to Mosquito Pass for a loop.

Munger mtn should be open to ebike all season long. The horse back riders on Munger do more damage to trails than bikes and can go on upper Munger year round, which can disturb wildlife just as much as a person on an ebike. There should be no different season for ebikes and mountain bikes on Munger.
