Title:

Comments: As a relatively new resident of Questa and a very new member of Taos Trail Runners, I fully support the proposal to build a trail from Questa to Red River that parallels the road.

Ideally this trail will promote and attract more enthusiasm for outdoor recreation in the Questa and Red River areas. If more families, runners, cyclists and walkers choose Questa as their jumping off point to explore the Carson National Forest, we could see increased interest in the area and potentially gradual small business investment and growth.

I am a strong advocate for the growth of the recreational tourist industry in the Questa area, and I believe that more initiatives like this serve to bring about that growth.

Best,

Damien
