Comments: I definitely agree with the proposed actions for Teton Pass, Munger Mtn, and the Horsetail area for e bike access. This would certainly help somewhat with congestion on Teton Pass with access allowed on Old Pass Road.

As an avid user of the Teton Pass trails I'm already seeing widespread use of e bikes on these routes and it would only now make sense to get this proposed action in place as the sport and outdoor activities continue to grow.

I do believe Teton Pass and Old Pass Road should be Class 1 e bike only along with designating recommended directional trail signage on all Teton Pass trails.

I agree with required permits for e bikes for classification.

All 3 classifications for e bikes should only be allowed on multi use motorized trail systems. I strongly believe they do not belong on non motorized trails.

I would like to see more or improved trails on Shadow Mtn and Ditch Cr. This would be a great area to embrace e bikes (class 1) with the trail connecting the Horsetail system and the obvious traffic issues created on this small FS road.

Thank you
