Comments: As pastor of a congregation whose relationship with Montlure Camp goes back many decades, I appreciate the opportunity to give voice to the immense and lasting positive impact church-camping experiences have made on many of our members lives, as well as the guests who have accompanied them. The site in Greer is especially cherished, and leaves a lifelong impression. Our oldest church members speak lovingly and gratefully to their own experiences there. Our teens and young adults echo their sentiments with each new year of camp. There is a great deal of devotion to continuing support of Montlure's camp program there. We hope and pray many lives will continue to be blessed in the future. Thank you for considering arrangements to allow for this vital ministry to continue in such a blessed and beautiful part of God's wondrous creation.
