Title:

Comments: I am an avid mountain biker, 63 years old. I encourage expansion of any e-bike opportunities in the Jackson Hole area. I especially encourage expansion in the Munger Mountain, Shadow Mountain, and Teton Pass areas. These are less populated than the Cache Game system, and could easily support e-bike recreation use. As an there are many older recreation users in the valley, adding these opportunities helps keep us on the trails. Thank you for your consideration.
