Comments: Dear Forest Service,

My spouse, Lori Block and I are pleased that the Forest Service is working on the Montlure Organizational Camp Rehabilitation Project and welcoming comments on the Scoping Project. My wife's siblings all attended camp and her parents volunteered in the kitchen in the 1960's. My spouse was a youth camper in the 1970's and has fond memories of communing with nature and experiencing positive spiritual times there, as well as making friends for a lifetime. Later in her life her children also enjoyed Family Camps at this beautiful place. For myself as a member of St. Mark's Presbyterian Church in Tucson, I have enjoyed fellowship at Montlure and work days from the mid-1980's through the present. It is a wonderful place to unplug and unwind.

From our long-time involvement at Montlure, we both support strongly the Forest Service include the Restoration Project - Action Alternative. Additionally, we both support the Forest Service evaluate this proposal as a categorical exclusion since the project is less than 20 acres.

Sincerely,

Michael and Lori Block
