Comments: As a 25 year mountain biker we should be able to allow class 1 Emnt bikes on our trails, there needs to be right of way that the e-bikers need to obey. The bikes do not damage to trails. I have 3 bikes enduro, DH, & E-mnt...I use them all, & I was brought up thinking that I lived in the land of the free, a land where I could use my e-mnt bike on trails if I would want to do so....i ride on my enduro farrins to west game, skyline loop and barley see a soul for most of the ride...what's the big deal....lets let everyone have some fun. But definitely might want some boundary's on who has the right of way, and a proper etiquette so everyone can get along.
Thank you!!!
