Comments: Thank you for considering the use of e-mountain bikes on public lands. I support alternative 1 in the draft EIS, and in general, expanded use of class 1 e-mtbs on existing trails in Teton county to improve accessibility of our National Forests to the general public. I would highly support more trail development in Teton County to increase the miles of trails available to the public, spread out usage, and potentially segregate hikers and bikers on separate trails in particular areas.
