Comments: Regarding the Montlure Camp in Greer Arizona, used as a Christian summer camp and other religious activities, allow me to state that I am totally in favor of the Forest Service allowing First Presbyterian Church of Casa Grande Arizona be granted a 20 lease on this piece of property. For many children this is their only chance to be able to experience nature in a structured, outdoor learning environment. There is no danger to the property by the people participating in this experience. The camp is continuing to operate on a temporary permit, but a long term commitment by the Forest Service would allow some repairs and maintenance to be done to the existing facility. Carrying on a tradition from at First Presbyterian will allow future generations to follow in family traditions.
