Comments: Montlure Presbyterian Camp has been an important part of my family's lives for many years. Both of my children, now adults, have been campers every year and often planned their entire calendars around the camp dates. It was a dream come true for my daughter to be able to attend her last season of camp at "home" at the Greer location in 2024.

I will never be able to measure Montlure's impact on my children's lives. They have both made life-long friends and grown in their spirituality and maturity through Montlure experiences. Montlure is a special place and offers so many youth the opportunity to learn and grow as citizens and leaders. Many campers, especially at-risk youth, have little or no exposure to the outdoors and National Forest outside of their time at Montlure. Montlure offers a unique opportunity to unplug from daily life and stresses and reconnect with nature, ourselves, and others.

It is a pleasure to whole-heartedly recommend and encourage full approval of this project to continue to provide our youth the amazing gift that is Montlure.
