Comments: To whom it may concern,

I am writing to express my support for the Montlure Camp rehabilitation project. My good friend grew up attending this camp and has spent many summers volunteering for the camp. She has shared her memories and how much the camp means to her. I did not attend summer camp growing up, but I strongly feel that summer camp should be attainable to our youth. They provide safe spaces for children to grow, learn, and form lifelong friendships and memories. Please support this rehabilitation project to ensure Montlure's continued ability to provide camp to the children of Arizona.

Thank you
