Comments: Hello Forest Service,

First of All...Thank You so much for your work! These times are troubling and we need dedicated Forest Lovers like You!

I Feel happy in the forest...it seeps into my soul! The Old Growth Forest with these ancient Sentient beings is a place of solace and reflection. These forests Sustain Us, Protect US, nourish US...They do everything for US....We MUST Protect them in Return!

I raised my daughter camping every summer deep in the Forests of Mt. Rainier. We took an amazing trip to the Canadian rockies....To Banff and Jasper ...mindblowing beauty and Peace and Laughter... made us so happy! I lived in boulder Colorado and spent my happiest Days in the forests.

Please Do All you can to Keep These amazing places Alive and thriving for all the Carbon that is sequestered....all the wildlife Habitat that they encompass! They are Sacred.

Thank You,

Carole Onasch
