First name: Rachel

Last name: Shafer

Organization:

Title:

Comments: Alternative B: This option strikes a good balance between preserving old-growth forests and improving fire resilience. I support new protections for previously unprotected old-growth forests and changes to improve the management of dry, eastside forests.

I support for Tribal Inclusion: Integrating Tribal knowledge into the planning process is essential.

I support language in the proposed amendment to minimize the impact of climate change on recreation, but recreation needs to be more thoroughly incorporated into the final plan.

Outdoor recreation is very important for me. I spend time hiking, climbing, backpacking, skiing in the forests and enjoy the nature and solitude. Please keep this in mind as the plan is determined.
