Comments: Hi, I'm a strong supporter of Alternative 1. I don't own an ebike, but may in the future, so appreciate the expansion of access. In addition, I like that this excludes ebikes on teton pass trails north of Highway 22. The Phillips Pass area is a terrific, relatively pristine pedal bike zone and would be negatively impacted by increased traffic. Philips Ridge, in particular is a great trail to climb and it would be frustrating to have to frequently dismount for ebikers.
