Comments: Good afternoon! I am a 70 year old man and 45 year resident of both Juneau and Tenakee Springs. I want to specifically comment on our support for forest recreation opportunities for both tourists and locals. Economic impact from outdoor recreation activities benefits every small and large town in SE Alaska, is sustainable, and brings into the communities much needed year round income. In addition, unlike logging that brings in out of town crews and leaves a mess behind for 1-3 years of work, healthy ecosystems support fish and hunting benefits for everyone. We support strengthening recreation planning and funding. We do not support large clear cutting. We support small logging opportunities for small local logging operations and mills were the income stays in the community. We understand that the non professional billionaires in WASHINGTON DC are calling the shots now. They are looking out for their own interests not ours. Please ?? push back on the craziness before us! Push for more trail crews, rangers at the Mendenhall Visitor Center, and recreational opportunities that benefit our communities! Thank you -Jeff & Karen Wilson
