Comments: I am writing to voice my support for the "Alternative 2- Proposed Action" in the TMtC Trails Draft. Thanks for the detailed environmental assessment. If it comes to it, I am also open to the Alternative 3, as the impacts of the Sheep Mountain Traverse trail seem to be the largest when compared to its net social benefit, while the other trails have the potential to add some engaging and fulfilling new pathways for users while also in some cases reducing user conflict.

Thanks.
