Title:

Comments: Growing up on the coast I learned the value of our nw forests. They bring people from near and far to marvel in the beauty. They bring hikers & cyclers & fishermen & hunters.

They provide oxygen. They are a home for so many plants and animals that we need in Oregon.

Our forests are NOT JUST TREES TO HARVEST.

They are nature & our neighbors. They are a place to visit & respect & enjoy.

Protect the NW forests!
