Comments: In light of this outrageous bill I would like to say that this is an egregious attack on our forests and ecosystems within! I am a hiker and truly love all the Pacific Northwest has to offer. You cannot allow this bill to pass it should be removed. I will do everything thing in my power to fight this bill! My friends and family will stand with me as well! This is heart wrenching to see that this is even considered! We need to protect our forest keep the money hungry billionaires out from ruining beautiful forest of old growth! Our future depends on our diligence to protect our forests and ecosystem!
