Title:

Comments: I am in support of protecting all Forests, animals and habitats. Please keep our beautiful lands and animals at the forefront to protect our state now and in the future. It is critical to keep these forests laws in place for so many reasons. The air we breathe, the animals that keep our ecosystem thriving and creating life. It takes all species, including us to keep everything in balance. There are other alternatives to trees for timber production. We need to focus our energy and direction to other alternatives that will not harm our beautiful Oregon.
