Title:

Comments: Appreciating that forest management is difficult and requires compromises between all affected parties, I beg you to save our old-growth forests and to promote biodiversity in all forests by stopping the practice of clear cutting. Instead, please consider indigenous ways to create sustainable use rather than abuse. Whereas this may reduce profits and supply, it will allow our precious forests to thrive, which in turn ensures our own future existence and well being.

Thank you for considering my plea.

Mary Beth
